

Remote Learning Program (R.L.P) Enrolment Form

Supplementary to the Course Enrolment Form.

Student name:	Date of birth: / /
---------------	--------------------

The Remote Learning Program is aimed at technicians employed in the NDT field.

RLP INSTRUCTIONS – ALL METHODS

Candidates will be supplied with a full set of training course notes for the particular method, complete with assignments, knowledge tests and maths worksheets (where applicable). Email / written confirmation of receipt of this material by the candidate must take place prior to any online assessment access.

Candidates must have successfully completed all online assessments before enrolling on Stage 2 Classroom Learning dates with a final score of more than 90% on each assignment.

Candidates attending Stage 2 must provide the following documents at least 7 days prior to course commencement. Failure to provide the information below will result in withdrawal from the course.

- Copies of all fully completed assignments
- Copies of all fully completed knowledge tests
- Copies of all fully completed Maths Worksheets (where applicable)

Method Specific Requirements

It is highly recommended that you have access to the relevant current standards specific to the method you are studying.

For example:

- Liquid Penetrant - ISO 3452
- Magnetic Particle - ISO 9934
- Magnetic Particle & Liquid Penetrant – ISO 3059

I understand the following conditions of enrolment and acknowledge by my signature:-

- I understand the Remote Learning Program requirements, as set out above.
- The on-site training component of the Remote Learning Program will be subject to the availability of the scheduled course.
- On-site training is subject to the scheduled course proceeding. In the unlikely event that this course(s) is cancelled, ATTAR will work with candidates to ensure alternative dates are provided.
- This form is to accompany the Course Enrolment form for the applicable method.
