Materials Technology (or a knowledge of materials processes).

WA Courses:

Copy of CURRENT Western Australia Radiation Safety Licence is mandatory.

If you do not have a WA Radiation Safety Licence, you will need to apply to the Western Australian Radiological Council for approval to attend this course. ATTAR will require a copy of this approval in writing.

The Student listed above hereby declares that:

- The total of my current industrial experience in Radiography is _____ hours.
- I have completed the RT2 Pre-Course Assessment on pages 4-7.
- I understand the ISO 9712 examinations held at the completion of the course will be difficult to successfully complete if I do not have the ISO 9712 nominated industrial experience in this method and sector (1260 hours and 1000 images viewed.). Candidates who do not have the required industrial experience may defer their examinations. Contact training@attar.com.au to arrange deferral.
- I understand that on the commencement of the course I will be examined on my basic maths and Radiation Safety knowledge to confirm suitability to attend the course and may be removed from the course if my knowledge is deemed inadequate.
- I understand that I must supply a current Film/OSL/TLD badge for the duration of the course.
- I have attached a copy of my current Radiation Safety Licence.
- I have attached evidence of my 40 hours of Radiography & Radiation Safety training.
